

Bringing Daffodils Preschool to Home

**LEARN
@HOME**

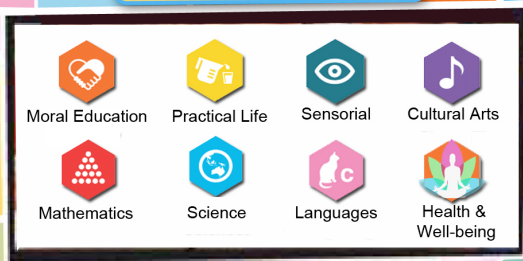

Kids are missing the preschool, but they shouldn't miss the learning. Daffodils brings the complete Preschool experience with online classes for kids to help them develop language, math, & social skills at their own pace.

Key highlights

- LIVE** interactive online classes with teachers
- Activity videos to watch at your convenience
- Daily activity for every student
- Curriculum-based learning material kit
- Physical development through online instructor

Curriculum Areas

Our Preview

At DAFFODILS THE PRE-SCHOOL, we strongly believe that wider the range of possibilities we offer children, the more intense will be their motivation and richer will be their learning experiences. We take pride in nurturing innocent young minds and make them bloom into children with intellect and multiple life skills.

Education is a natural process carried out by the human individual, and is acquired not only by listening to words, but by experiences in the environment.

I am in Daffodils Preschool

*I am not built to,
sit still, keep my hands to myself,
take turns, be patient, stand
in line, or keep quite all of
the time.*

*I need: motion, novelty,
adventure, and to
engage the world with my whole body*

LET ME PLAY!
(Trust me, I'm learning)

Curriculum Uniqueness

- ✓ **INQUIRY BASED LEARNING METHOD** : Inquiry learning invites children to learn through investigating questions and problem-solving. Inquiry learning is child-led investigations. Inquiry-based learning is more than asking a student what he or she wants to know. It's about triggering curiosity.
- ✓ **BALANCED APPROACH INTEGRATED CURRICULUM** : We have ensured the Curriculum has a mix of the best approaches internationally while retaining a balance between the joy of learning & inculcating new concepts for the children.
- ✓ **HIGH IMPORTANCE ON VERBAL, READING, WRITING & NUMERACY** It is imperative that the children have a very good grounding on their Verbal, Reading, Writing and Numeracy skills as these are the building blocks & children at this age group are the fastest learners. We have placed utmost importance to their learning.
- ✓ **HANDS ON APPROACH** : The Children will be encouraged to do things instead of just observing and learning. The Process of learning will be observe ,practise and implement. This will provide the children with hands on experience of doing all things.
- ✓ **FINE MOTOR AND GROSS MOTOR SKILLS DEVELOPMENT** : The early formative years of children are Important and hence the stress on the development of their fine motor skills and Gross Motor Skills.
- ✓ **FIELD VISITS** : Regular Field visits will be encouraged and organised so that the children can learn social interaction and also learn visually about the different roles of society at large.
