# 01 INTRODUCTION

## Introduction on Heritage International School

The school builds on **intelligence** in evergreen education health on prosperous educative technology that flanks on three symbols :

### EDUCATIVE INTELLIGENCE OF HIS

Education Research **A**

**B** Technology

Broad Team of Teachers Guide **C**

Education research in HIS is conducted theoretically in guidance of well researched educative structure on teachers appointed to problem solve the needs of peculiar student monitored by Head Mistress in terms of **cognitive speaking skills**, **monitoring health** of students in mandatory well-being in proper diet food in canteen, doctors routine check up – a plus for a child’s good health , **modern sick bay** in case the health lowers providing relaxation and basic medicine.

The Head mistress in strictness and discipline monitors the result of students and gives advices to the mentors and good parents to fill up the negative results by exercising a lean approach & work on it on subjects throughout the year. This model research of action on subject is based on advancement in the module of ICSE exercises to

mend the result in ICSE result-based approach system in internal evaluation and assessment of ICSE Board, to achieve result oriented in advancement on studies on concept building approach that focuses on **deep practical understanding** over rote memorisation, emphasizing **inquiry - based learning**, **applications of knowledge** to real world problem and **critical thinking**.

The ICSE research module concentrates on theme-based and interactive learning with strong emphasis on project-based work and a holistic curriculum that integrates academics on gravity with extra-curricular activities, fostering creativity, inter-disciplinary connections and life long skills.

## Technology

The curriculum of school based on concept of experience of integrated learning of connecting lessons in a practical approach of learning in **digital school board**, concept clearance in motivation of school children, lesson learning glued to digital experience is the most rewarding lesson plan.

Research of Intelligence and thinking power of concepts by vibrant digi board system makes the theoretical and practical modules study learn fast in a diligent and vibrant tone, in clearance of doubts as the student rehearses the studies in love of more learning.

**Computer Application** studies makes students bright and cornered to computer world of interest and modern life where computer skills is a necessity arranged with powerful computers in lab, in technology oriented school, students gather love of computing world and excellence.

The **school app** manages the day to day activities messaged to the parents in concise by videos and images making thr school colourful & admiring, where school events are captured & celebration of parents is in tuned in the journey of evergreen child.

Tasks and Notices are declared in the App in parents informative agenda. The work of educative studies in an orderly fashion, is a channel integrated in the App of students study world.

# Technology

Online Pay of fees, to pay smoothly and in a secured **robust App** is in parents comfort and the school administration ease of managed fees and payment clearance and scheduled notification messaged to parents, to clear at ease in the time frame and delays are prevented.

Investiture of **teachers** for all around development is in the heart of HIS. Concept clearance and vigilance of studies in an appropriate guide to students in clearance of doubts and solve in a right manner is a teachers guide

of formal education in class, in a detailed learning rigour & in a benchmark of advanced learning motion of guide in a simplicity technique & adherence to the concept world in a technique of meaningful research based teaching where intelligence is researched in one child and a guide is chaired one on one by teachers of conviction in an orderly fashion in tuned to a child's development of holistic research.

Remarks of the examination in a **guide in teachers** energised to good marks in advancement of specific subjects of poor remarks by changing the technique in hard work on subjects of poor understanding, glued to the subjects on concentration in a benchmark of teachers rhetoric techniques of subjects of advancement in practical uniformity of studies in good educative intelligence in imperial conduct of exercises is the heart of HIS world of studies make over of energised techniques.

### Progressive Intelligence (On Concept Building) in our school.

Means to harness rhetoric concepts in hands on progressive Intelligence of HIS intellectual teaching in the base on the concept structure in a meaningful form, to teach the basic form and advance through proper concept structure building of nuances, of subject through linguistic meaning and advanced to practical conceptual thought of means, is approached in the educative techniques of mere understanding of conceptual form in techniques of HIS Intelligence in a broader form.

HIS approaches practical conceptual form over linguistic terms, of concept models in examination of the world of substances in a proper scientific thought of the form through examination of objects of scientific fields or a model that owns enchantment of the theory of said subjects.

Practical approach is the root of HIS educative life, of experimentation on the basic of experiential concept modules in eager and intense school and mood of enchanted students in the field of theoretical and experimentation of subjects.

**This practical approach solves the base on intense form and simplifies educative teaching.**

Moral principles thought in the life of HIS is a subject that means world to the institution. Diligence of thought of pure cover in the heart of students to reach a meaningful wisdom in advancement of thought through guidance of teacher's compassion & great understanding of others is the soul of good Heritagians.

Motivation to **respect** others through good human emotional heart of meaningful conversation is a moral standard the school delivers to good Heritagians.

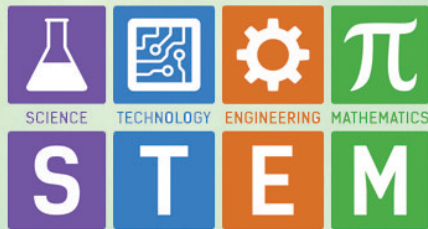

Wisdom of **Humanness** is a thought important to a good human of **humanity**, is a pledge motivated Heritagians encompasses in a great life of heart.

### Care for Humanity

## 6 pillars that enrich students in Evergreen HIS

1

STEM Education

2

Enriching Body &amp; Mind

3

Learning Enrichment &amp; Speaking Enhancement

4

Great Artistic Composure

5

Experiencing theatrical world

6

Institute of excellence with a grand infrastructure

1

## STEM Education

Enriching students focus and motivation of science based concepts in techniques of science and technology, based on science education that focus on energising the mental capabilities of scientific knowledge by focusing on practical application based on Teachers plan to educate and focus on Science, Technology, Engineering and Maths and gain a scientific momentum on students base that acknowledges a focus to be science motivated individuals that carries admiration to the mechanics that grows into achieving in the science world of scientists, engineering, mathematicians, doctors or general science knowledge that attains wise concepts and make life easy in scientific threshold of knowledge & application like comfortably operating electrical devices & fixing it easily in enhancement of genral knowledge of scientific thought.

## 2 Enriching Body & Mind

### Enriching movement & exercises of body and meditation techniques.

Throughout the schooling and learning life the momentum of exercises are first and important part of the school in growth boost and energy expanded in the health of a child. The techniques are part of **physical education** and advanced training by good and professional trainers of expertise, in physical education, all around sports training on cricket, basketball, football and the likes and conducting championship and give them a place to show there talents.

HIS plays a role in energising the focal thinking singularity of concentration in study and play in devotion of mind in OM **meditation** sessions periodically in a state of worship of God and in physical relaxation.

**Yoga life** is a sturdy life & a part of the schools advanced body growth and stamina enrichment procedures conducted throughout the schooling life. The movement is sound and the balance of energy is best for Yoga students in careful Yoga exercises by trained physical trainer.

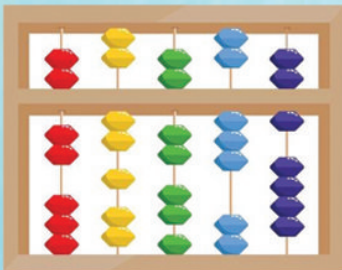

## 2 Enriching Body & Mind

The grown ups exercises **Judo** in martial art power in enthusiasm and great introspection of fight techniques and of energised strength for growth and self defence in discipline and owns a sturdy body.

The speed of thought is filled in a gain of strength as the students conquer concentration in the game of **skating** and grow in exceeding fitness and stamina, energised in focal energy & of great balance for overall strength build and an agile life.

# abacus

**Abacus** – Mathematical wisdom of calculation in tricks is good for students motility of brain, trained by our own Abacus professional teachers in mathematical simplicity and rehearses the thinking mind to calculate in a speed of thought in a mathematical genius smartness and a thinking mind of giant mathematical calculations giving them the aptitude to calculate seemingly gigantic numbers in a thirst of right answers with speed and accurate calculations.

## 2 Enriching Body & Mind

Special time is given to practice and play **Chess** and expertizing in this game in development of mind of cognitive thinking and a gesture of ideas evolve in thinking mind great for holistic development of thinking skills and energetic time enchanted in our course of healthy mind and body.

Thinking students matters in life in a source of reading matter of newspaper that guides the emotions and nurtures the society thinking of great introspection in current affairs and students build knowledge of societal understanding in bond of emotions in collective synthesis of life in articles and in conclusive news. **NIE (Newspaper in Education)** displays schools achievements and conduct that gives rewards by coming in limelight and makes education rich in enthusiastic love and scholastic life.

### 3. Oral Speaking Enhancement and studies of formal ICSE school.

The school covers in its day to day activities, the achievement of academic programs, a studious achievement of children and monitoring to study hard and digest the ICSE curriculum in advancement to get more marks and prepared to lit up in thoughts and good marks in observation by Academic Teachers.

Admiring capabilities honed in subjects, the reasoning and grasp of **scientific knowledge** is what makes ICSE school apart from other boards in progressive education, in deeper enrichment of scientific thoughts & progress in scientific technology by embellishment in the knowledge, in a career of scientific knowledge in medicine, in a general doctor and in a thought of engineering.

In English workaroud & Internationally admired academics compatible to the capabilities of **International Boards** more on vocabulary enchantment of English knowledge, the board is reputed in language skills adaptable to International Boards , in an enriched scientific knowledge & student can opt in progressive education of institutes abroad in compatibility and organised to implement there progressive knowledge in a workaroud to impress a scholastic knowledge abroad, is a unique advantage of ICSE Scholastic Board ingrained in HIS Education System.

3

## Learning Enrichment & Speaking Enhancement

Apart from science based education, enormity to social knowledge is enchanted in **Humanities**, in a foothold of History, Civics, Geography in a social mechanism of depth of social literature that caters in work of Law and Jurisdiction of a Lawyer, a Doctorate & PHD in social science for administration of multiple fields of Political Science, in careers of Psychology, to head in Business of Economics and more.

This scholastic ICSE in proper education of HIS in scientific knowledge enchantment & a knowledge of social understanding and of economics of business understanding makes the school upward in general.

The standard of **Artistic life** of HIS students on excellence makes art enjoyable and mesmerising drawings on aspects of History, Conceptual drawings on environmental awareness are part of HIS artistic endeavour. Art and craft is fun & enjoyable . In craft, structures animate bringing life to models that stars in the heart of a child in uniformity and creativity.

Intense **theatrical** concepts fills the life of Heritagians with enjoyable time. The diverse world of drama in intense performance acts as a morality booster of students in themes of preserving environment, playful dialects, that spreads message of coherence in freedom fighters acts, message that elevate humanity, dramas of fun and comical gesture ans so on.

Great art of **dancing** skills is periodically taught by professional dancers technically. The will to dance is complete with enthusiasm & style, learning with celebration of dance. Modern dance,

cultural dance, classical and beautiful gestures of dance in enthusiasm and style adorns the stage of beautiful moments and is life of Heritage and heart of every student.

6

Institute of excellence with a grand infrastructure

Crowned as a modern and aesthetic institute in Kalyan city, the beauty of Heritage is in modern amenities and décor, where students enjoy a complete & beautiful modern school, where

studies are in clean & aesthetic furnitures, the building structure like a beautiful gem and the structure rising to **8 storey** for capabilities of spacious & beautiful classrooms. Modern Amenities backed up by children's playground and between this, a unique turf of class of **FIFA certification** makes heart green and comforting.

Life in HIS

is good evergreen...
